Hey! Come To The
Square Dance

The Raymond Square Dance Club began another season of dancing on October 17th in the Junior High Gym. Due to the fact that our Club Caller Joe Strong was not able to be there we invited Picture Butte's Caller Mr. Allwyn Stone to call for us. Mr. Stone brought along with him Johnny and QuAppelle Gibbons and several other couples from the Alemande Left Club in Lethbridge and also Mr. and Mrs. Collett from DelBonita were here. Although we had a very good time, crowd, and lunch we were sorely disappointed in the turnout of newcomers to our Club. Three new couples were all we could muster from Raymond. Many people have talked enthusiastically of Square Dancing this winter but like so many other things put on in Raymond we cannot seem to get any actual support. If you are staying home because your only friend that invincible next door neighbor won't come, break loose and come on up some Saturday night we'll introduce you around to such little known people as the John Zobel's, Frank Andersons, Kieth Turners, Duke Helgesons, Stan Browns, Harry Hall's Howard Browns, Raymond Jensens, and many more.

We have been asked many times if our Club was a religious organization no more than is the Curling Club or Badminton Club. So whether you are 20 or 60 come on out and have a good time with us.

Anyone that can walk can Square dance and the only difference between an experienced Square Dancer and a beginner is to know your left hand from your right foot.

See you at the Square Dance.

Mrs. Wiley of Cardston was a Sunday guest of her son and daughter-in-law Mr. and Mrs. J. Holland.

LEST WE FORGET

THE POPPY MAKERS

"In Flanders Field the Poppies blow Between the Crosses now on row." In the year 1921 the blood-red Poppy of Flanders was adopted as the National emblem of Remembrance for Canada, to be worn every November 11th., in tribute to those who gave their lives in foreign fields, to those they left dependent, and to those gallant men who are still suffering from wounds and physical impairment.

The first year the Poppies sold throughout Canada were made by the women and children of France, but the next year and every succeeding year, the Poppies were made by our own disabled Veterans, who realized and appreciated their significance.

In 1923 the first Vetcraft Shop was established and since that time the manufacture of artificial poppies has increased from a few thousand to over four million.

Would you like to visit a Vetcraft Shop in Toronto? And meet some of our Popple Makers?

Over there that white haired man is John, nearby, Bill, is patiently toiling away — yes, he is white-haired too and his face is lined, he still suffers great pain. Look around the shop and notice that many of the Popple Makers have physical disabilities. Why do they work? They all receive a pension but in most cases very inadequate so that there is a need of additional income and gallant heroes filled with the spirit of independence yet unable to compete or stand the strain of regular jobs, these elderly veterans, all of them over 70 years of age have become our Popple Makers.

They are assisted only by a few women who are ex-members of the Woman's Services, averaging 60 years of age. They are needed because certain operations in Popple Making require the skill of more nimble fingers. In this Toronto Vetcraft Shop the Popple Maker cuts and shapes the many varied parts that make up our millions of Poppies and thousands of Wreaths.

The Legion needs these Poppies so that through that through their distribution its work of service by Dominion, Provincial and local branches may be carried on.

The people of Canada need these Poppies. Here in Raymond every school child and every citizen has need of these poppies in order that once a year — for a day, at least, they may participate in the Act of Remembering those, who sacrificed their lives for the freedom we enjoy.

On November 11th, Wear a POPPY and Wear it Proudly.

LAC Alex Nemeth, Mrs Nemeth and baby daughter are visiting at the home of Mrs. Nemeth's parents, Mr. and Mrs. Carl Lutz. Alex is stationed at Penhold.

Mr. and Mrs. J. Holland announce the engagement of their youngest daughter Ruby Gelane to Raymond Harvey Collin son of Mr. and Mrs. J. F. Collin of Foremost. The wedding will take place in Lethbridge on November 7th.

BEFORE remodeling old clothing, make certain that all pieces of material to be used are clean and well pressed. Some of these may need laundering, and you'll want to make use of the following tips: Rip silk and rayon garments and sort out all the usable pieces. Wash pieces by hand in lukewarm suds and rinse in clear water. Squeeze moisture out gently and hang to dry. Avoid soaking the dark or multi-colored fabrics.

To quick-dry as well as to prevent spotting on silks and rayons, spread material on a piece of Turkish toweling, roll and unroll. Most light weight pieces will be ready to press with a warm iron after this treatment.

White fabrics or laces or embroideries which have become yellowed should be treated with an ordinary household bleach, thorough rinsing and sun-drying.

RECIPE OF THE WEEK Tasty Broiled Sandwiches (Makes 4)

4 slices bread
2 tablespoons mayonnaise
2 tablespoons chopped onion
4 slices American cheese
1 medium sized tomato
4 slices crisp, cooked bacon
Spread bread with mayonnaise. Place chopped onion and slice of cheese over the mayonnaise. Cut tomato into 8 thin slices and place two slices over each sandwich. Place sandwiches under broiler for about 5 minutes to let cheese melt. Top each sandwich with a strip of bacon and serve immediately.

They'll then be as good as new for your remodeling job.

If fabrics have lost their original stiffness, and you want to re-use them, wash and rinse thoroughly. Now give them a gum arabic rinse which is made by adding gum arabic to water. Amounts of gum arabic can be adjusted to the amount of stiffness required.

Sheer bits of lace or trimming can be washed in a pint jar by shaking. Use this method for rinsing delicate bits of fabric, too, to prevent snagging.

When woolen materials need to be washed before remodeling, wash in barely lukewarm water. Squeeze the suds gently in and out of the material. Excessive agitation will cause shrinkage.

Breakfast should be simple and easily prepared - but it should be attractive and appetizing too! Most important of all - breakfast should provide its rightful share of the day's food needs. It's a meal to start the day with - not an appetizer taken sometime before lunch.

BAKED SQUASH TREATS:—

Those who do not ordinarily like squash will enjoy it fixed this way. Decorate your dinner platter of vegetables with squash cups, stuffed with sausage or veal. Wash acorn squash and cut in half lengthwise. Place cut side down on greased pan and partially bake. Turn and put 1 tablespoon honey and two little pork sausages in each cavity. Bake at 400 degrees F until squash is tender and sausages are brown. Or cook until tender before turning; then fill with creamed veal or chicken, sprinkle with cheese, and brown.

Back in the old days all planters had to walk a lot further than that but now there's nothing to planting a really big field if you get one of the JOHN DEERE PRESS DRILLS we have for sale. They're in excellent condition.

Not to expect perfection — that is the soundest principle of married life.

Summer's tall green grasses Are golden now, and brown. They ring around the meadow That rings around the town. The wind sings wintry phrases Where the golden grasses grow. The wind sings of the winter And of the winter's snow. But the grasses sing of summer, And of a summer's day. And all the wintry winds that blow Can't take the song away.

Ceiling Marks: To whiten soiled marks on a ceiling, I have discovered that all white or white and gray chalk Scotch-taped to the end of a mop or broom handle will do the trick. After applying the chalk, tape a towel to the broom handle and brush over the chalk marks lightly in order to blend them into the background.

Mr. and Mrs. Junius Anderson were week-end visitors to Edmonton where they were the guests of their son-in-law and daughter, Mr. and Mrs. Jim Hudson. They accompanied Bishop and Mrs. J.O. Hicken there, where they enjoyed visiting with their son Ken, who is attending the University.

THERE ARE TWO SEAS

There are two seas in Palestine. One is fresh, and fish are in it. Splashes of green adorn its banks. Trees spread their branches over it, and stretch out their thirsty roots to sip of its healing waters.

Along its shores the children play, as children played when He was there. He loved it. He could look across its silver surface when He spoke His parables. And on a rolling plain not far away he fed five thousand people.

The river Jordan makes this sea with sparkling water from the hills. Men build their houses near to it, and birds their nests; and every kind of life is happier because it is there.

The river Jordan flows south into another sea.

Here no splash of fish, no fluttering leaf, no song of birds, no children's laughter. Travelers choose another route, unless on urgent business. The air hangs heavy above its water, and neither man nor beast nor fowl will drink.

What makes this mighty difference in these neighbor seas?

Not the river Jordan. It empties the same good water into both. Not the soil in which they lie, not the country round about.

THIS is the difference, The Sea of Galilee receives but does not keep the Jordan. For every drop that flows into it another drop flows out.

The other sea is shrewder, hoarding its income jealously.

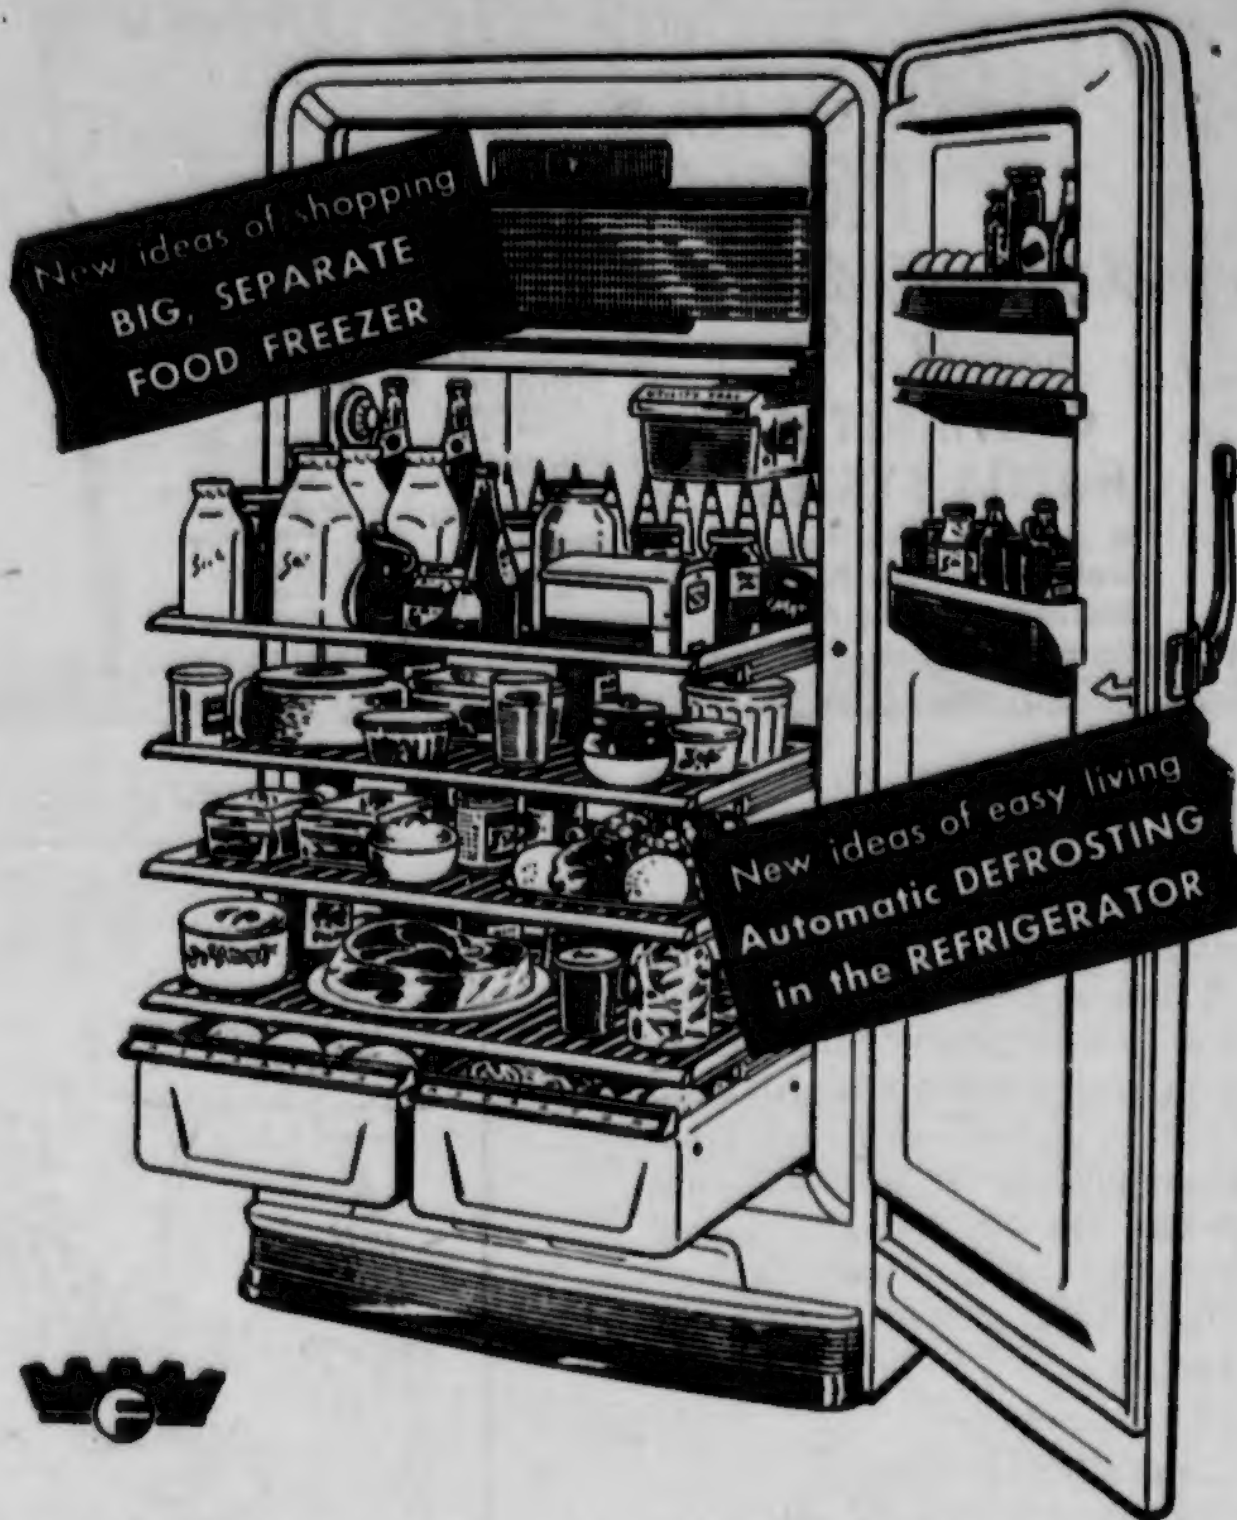

It will not be tempted into any generous impulse. Every drop it gets it keeps.

The Sea of Galilee gives and lives. This other sea gives nothing. It is named The Dead.

There are two seas in Palestine.

There are two kinds of people in the world. ... Bruce Barton.

GREEP'S ELECTRIC

HUMILITY

'Tis a wondrous thing to be clever,
And commendable to be proud.
'Tis shrewd indeed to know when to lead
And when to follow the crowd.
'Tis a splendid thing to be happy,
And admirable to be wise;
'Tis skilful, true, when one can win through
And cut down a problem to size.
'Tis a fine thing never to gamble,
And an art to know whom to trust;
But wisdom is found lying close to the ground
As gold is found in the dust.
'Tis a marvelous thing to be mighty,
To tread a steep path and not stumble
But noble is he who uses his knee —
'Tis great to know how to be humble.

You're "sitting pretty" when you get behind the wheel

First thing you'll notice is the quality of the interior. Rich-looking upholstery and appointments — color-matched to the exterior color. Chevrolet, you know, has the world-famous Body by Fisher — and you can certainly tell the difference in workmanship!

You'll find you get more power on less gas

Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide® models, you get the most powerful engine in Chevrolet's field — the new 115-h.p. "Blue-Flame." Gearshift models offer you the new 108-h.p. "Thrill-King" engine.

You'll discover it's the lowest-priced line

Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field. You can be ahead in every way with a new Chevrolet! *Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

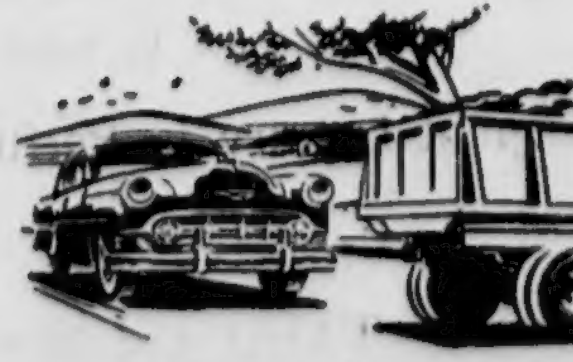

You can even get Power Steering

You ought to try Power Steering to see how easy driving can be. Even standing still, you can spin the wheel with one finger! Yet there's nothing new to learn and you actually have safer control under all conditions. It's optional, of course, at extra cost.

You get greater getaway with the new Powerglide®

With Powerglide automatic transmission, you're automatically in "low" range for standing starts and for quick passing in city traffic. Then — automatically again — you slip smoothly into "cruising" range as you pick up speed.

Jumbo-Drum brakes give you smoother, easier stops

You'll feel safe and secure with these greatly improved Chevrolet brakes under your foot. An easy nudge on the brake pedal brings smooth, positive response — right now! With their 11-inch drums, Chevrolet brakes are extra large for extra safety.
